Farmingville, NY – At the April 7 Town Board Meeting, Councilman Michael Loguercio (right) and the Town Board honored the Longwood High School Environmental Club who participated in the "Trout Unlimited Carmans River Clean Up." On March 26, the students, their advisors, and members of the Art Flick Chapter of Trout Unlimited, walked the river for 3/4 of a mile, collecting over 300 lbs. of garbage, trash and debris.

"Thank you to the students and Trout Unlimited for their commitment to protect the environment," said Councilman Loguercio. "Cleaning up the Carmans River is especially important because of the impact it has above the ground and on the aquifer below the ground. The

river is one of our greatest natural resources and we must preserve it for generations to come."
